# Our French Courses

Our program includes approximately **20 hours** of teaching time per week for a solid learning.

## General Courses 10 hours/week

Our teaching team creates original, up-to-date content for a variety of courses, limiting the use of current textbooks while respecting the reference framework for languages.

## Workshops 4 hours/week

We offer one-hour workshops to enrich general courses, clarify lessons, and provide more time for discussion, oral expression, pronunciation, French culture and DELF/DALF preparation.

## Tutorials 3-6 hours/week

The tutorials are exercise sessions to practice course topics and work on gaps in knowledge, with a teacher present to answer every question.

## Cultural outings 2-4 hours/month

Each month, we visit a cultural place, like a museum or explore the unique parts of Paris with a pedagogical guide.
